| **Passenger Car Accessories \| Carrier systems \| Rear carrier \| Rear carrier on trailer hitch \| Rear carrier on trailer hitch** | | | | | | |
| available | A0008901700 | Rear bicycle rack, for trailer hitches, Folding, 2 bicycles, ECE Plastic / Aluminium / Steel, anthracite / black |  | For the customer, there is no discernible difference between the A0008901700 and A0008901100 part numbers (2 rear bike racks on trailer hitch), since the subsequent A0008901700 number only exists because of a component change due to a change in the subcontractor. A0008901100 can therefore still be ordered until the GLC inventory has been depleted.<br>Where necessary, the load must be provided with suitable lighting and warning symbols in compliance with local legislation.<br>An additional identifier may also be required. This must be affixed in a suitable position on the rack and in compliance with local laws.<br>For all Mercedes-Benz passenger cars:<br>Only in combination with a trailer hitch (special equipment code 550) or retrofitting.<br>Not suitable for use in conjunction with external spare wheel.<br>On vehicles with a tailgate, access to the boot is restricted. Can only be accessed by removing the rack!<br>Attempting to fit an e-bike featuring a down-tube battery to the bicycle rack may cause difficulties with the correct attachment of the retaining arms.<br>Designed for the secure transport of 2 bicycles.<br>Can be folded – compact dimensions (width x depth x height) 63.5 cm x 65 cm x 40 cm.<br>Lockable to prevent theft.<br>Removable and freely positionable bike holders with quick-release fasteners.<br>Convenient roller guide for maximum extension (access to boot), including safety unlocking mechanism and convenient release pedal. Solid steel base frame. Roller mechanism, bicycle rails, retaining brackets and aluminium bicycle brackets. Retaining brackets with quick-release fasteners – folding.<br>Convenient wheel mounts with quick-adjustment feature and pump latching straps with "park position" for the tensioning straps. Ball mount receptacle for maximum safety. Maximum load 57.5 kg. Also suitable for E-bikes. | | X | immediately |

The required SIM card and the required data volume are not part of the offer. If you would like to purchase a wallbox with LTE-M SIM card and 8 years of data volume included direct from Mercedes-Benz, you will find the corresponding product under item number A0009063212. With this offer, you receive the data volume for up to 8 years, but until 31.12.2033 at the latest. The offer applies from the date of activation of the card during installation and may therefore also be valid for less than 8 years. The insertion and installation of the SIM card should only be carried out by a qualified specialist (for example by your electronics engineer) and is not designed to be undertaken by the end user. Our installation partner will be happy to provide advice on the requirements associated with the SIM card and how to obtain one. | X | X | immediately |
